

THE REVELATION

As a maxim goes, finding true delight through a balance of mindfulness and efficiency is the path that leads to prevalent grace.

It is with a great honor I am sharing my story with you.

One day I prayed, confessed, and thanked God for everything he gave me, as I thanked all the Angels, my Brothers and Sisters.

Unexpectedly and unaware the lightning struck creating a shining point of light in the sky, the energy ran through my head and spine connecting me with God, the highest intellect. "You've taught Liar a lesson! Now continue to teach them a lesson mercilessly!"

His strong and somewhere belligerent voice made me realize, I was told by God. A shape of an Eye emerged in the sky. I've compared what I saw with "Yin and Yang", he thanked me.

The moment of total enlightenment and clarity of consciousness immediately caused happiness and evoked life-changing Ideas for the future.

After I drew this eye-shaped sign and published it, 2 days later a thunderstorm approached my area. The flashes of lightning responded to my thoughts and questions meaning a confirmation. I saw the first letter of the word "Truth". One of the most frightening lightning bolts has hit right in front of me, which obliged me to comprehend the seriousness of a certain situation.

I captured an image from the satellite with the same shape of an eye. It was the brightest spot in the middle of the world map. The place called Amberg means "On The Mountain" in English.

God blessed us and gifted us with Extrasensory Perception allowing to exchange thoughts and impulses. It turned out I was given a special power to make pressure by looking at the image of a person. The ability I wasn't aware of before. Combined with mind-reading this skill enabled a new form of conversation.

Miraculously the signs of God started visualizing in different shapes in the sky. The handful of evidence is pointing to the existence of the informational field. Once I entered it I was able to understand the force and shape of the universe that helped me to create and visualize my particle physics theory. When I published this animation 2 stars collided in space that for me was proof and the extensiveness of God's power.

This theory has been submitted to CERN Institute following up with the application of some technique-related tests that made the possibility of realization more evident.

I used to read symbols with my eyes closed while meditating after getting into a special condition. Some fragments documented on paper served as predictions to show how to recognize God's protection, predicting the causes of destruction to detect the true reason and helping us to measure an adequate balance.

As one of the most important events to date, I predicted the floods in Iran right before they took place. We've had many signs that served as a precaution of something significant before it happened. Just recently on International Peace Day, I witnessed a meteoroid in the night sky which was a sign predicting a 2020SW asteroid approaching the Earth.

The tendency of this doctrine is based on the "Golden Rule":
Treat each other the way we want to be treated.

The main idea is to learn how to respect and appreciate each other's cultures and express our gratitude. The way how we can avoid damaging and forceful change through an inappropriate dictatorship. People have to show their love to God the way they worship and cherish their culture, perpetuating traditions, somewhere it's more about freedom, somewhere it's more about self-challenge and improvement.

Sovereignty must be respected preserving a dignity to overcome difficulties and disputes between the Nations, otherwise, God will balance it out. Sometimes the values we keep for generations are being wrongfully evaluated by others, which leads to a path of self-destruction on a global basis. As a result, we are affecting the fate of the place and the people we represent.

Our life is a race against time that is getting more limited based on the polluting process and mishandling of the environment. In the nearest future it might cause major changes through a possible shift of the poles.

Accepting the rules of God, to serve in sincerity and truth, living by conscience, we secure his protection.

Peace is imminent, only peace allows us to evolve and implement unlimited economic growth, receive all blessings of God.

He is leading us to a paradise on earth.

Scientific progress depends on our capacities. It is a forthcoming process of eliminating the barriers in our consciousness and expanding our knowledge.

His Royal Highness Prince Mohammed bin Salman reached out to me through social media and news to get me involved and work on the conflict in Yemen. After God's confirmation with the lightning flashes in the shape of "CW as Civil War", it took almost a year of hard work since March 2018, until the negotiations took place and the UN - organized "Stockholm Agreement" was reached.

After signing it took another year to achieve a partial implementation.

Meanwhile, I have learned from His Majesty King Salman bin Abdulaziz Al Saud about the Islamic culture. It helped me to understand the scope of a conflict and the entire situation in the Middle East involving: Saudi Arabia, the United Arab Emirates, Yemen, Iran, Qatar, Israel, Palestine, and Lebanon.

As one of the most important contributions to world peace to date, I managed to mediate and convince the Leader of North Korea Kim Jong Un to negotiate with the United States leading to the first summit despite all the circumstances, as well as convincing the President of China Xi Jinping to compromise in his efforts to find common ground and start talks with the United States. We have maintained to reduce tensions in the region on the brink of war, cooperating with Foreign Minister of Iran Mohammad Javad Zarif.

We also cooperated with the Governments on many different issues including Brexit, where my involvement was quite helpful, coordinating with:

British Royal Family,
Prime Minister of the UK Boris Johnson,
German Chancellor Angela Merkel,
President of the EU Commission Ursula von der Leyen,
former Prime Minister of the UK Theresa May,
President of France Emmanuel Macron,
former Prime Minister of Italy Giuseppe Conte,
Tánaiste of Ireland Leo Varadkar,
former President of the EU Commission Jean-Claude Juncker,
the United Nations.

Throughout this time many news outlets supported me and helped us to communicate and specifically focus on the issue.

For many years my life was about self-education. I have learned techniques of creation and improved my talents, trained my intuition. After many ups and downs, I finally decided to take a venture of becoming an artist inspired by incredible artists and great personalities I have seen throughout my entire life.

The modern way of expression in music and storytelling takes its roots from rituals of paying glory to God. During this time we have gone through many lessons bringing us closer, to understand the true meaning of testaments and learning from failures of the past.

Some officials, political figures, and others may seek to score benefits, after they've tried to mistreat, misrepresent and demonize God in order to cover up, causing a lot of damage. Furthermore, they were misleading supporters and leaders to misguide the public creating an illusion of inequality, besides blacklisting and blackmailing in an attempt to prevent my appearance.

Please, don't fall for the false narrative!
